ARQADIA

A Larson-Juhl company

Framers Equipment Northampton

Well What's NEW

Framers Equipment working in partnership with Arqadia Mouldings offers everything a new starter or existing Picture Framer needs, from the most basic machines and materials to the more advanced computerised machines along with conservation / Museum level materials at competitive prices.

But its much more than that, we have the Knowledge and experience to back all these products, with our experience and contacts it puts you in a stronger position to take on all levels of framing with confidence.

The NEC Spring fair allows you to do your homework or research, but take your time and don't rush into a sale, remember not all the suppliers are present and you need to see the full picture before parting with your money.

If you make the right decision you purchase once only, or if you take what you think is the clever way via the internet then be prepared to have an expensive journey with NO backup.

May be I will write a book one day on these Horror Stories of so called reconditioned machines.

Peter Stanlick MD

SUCCESS THROUGH KNOWLEDGE
